## LIBRARIAN PERFORMANCE

| | | |
|---|---|---|
| IUPUI | Associate Librarian | 2018-present |
| IUPUI | Assistant Librarian | 2013-2018 |

As the Scholarly Communication Librarian I am responsible for supporting the growth of open access dissemination strategies on the IUPUI campus. I lead the adoption and implementation of the IUPUI Open Access policy, the development of the institutional

repository (IUPUI ScholarWorks), and the administration of the IUPUI Open Access publishing fund.

I also provide consultations, education and information relevant to the best practices in research metrics, copyright, Open Educational Resources (OERs), and Wikimedia. I assist with the delivery of the library's open access journal publishing service, Journals @ IUPUI on the Open Journal Systems platform.

I support the shared work of the IUPUI University Library Center for Digital Scholarship (including outreach, open hours, and other services).

In addition to advocating for new forms of scholarly communications, I served as the liaison to the School of Public and Environmental Affairs (2013 – June 2017). As a liaison I provided collection development, information literacy, and research consultation services. I also participated in the library's provision of reference services.

Prior to joining University Library (Jan. 2013), I worked as an informationist in the I.U. Center for Bioethics (Indiana University School of Medicine), where I managed a special collection of bioethics resources while collaborating on information ethics, research ethics, community engagement, and health policy projects.
